

USER GUIDE FOR AUDIO RECORDING APP

The purpose of this app is to record audio of law documents to help engineers build a speech-to-text model. The audio of the documents that you record will be used to train the model to be used for building an app that converts audio to text.

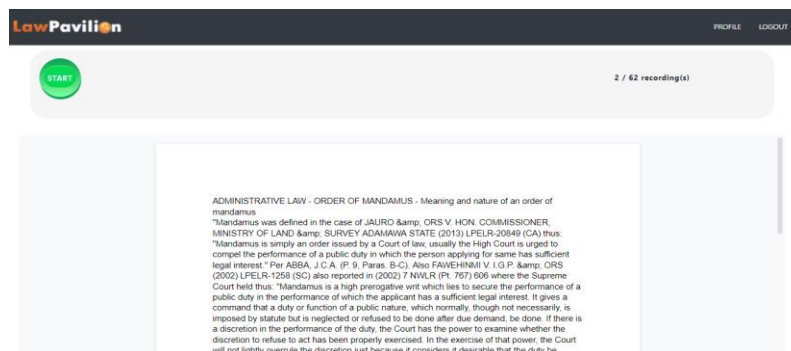

To effectively use this application, please follow the instructions below.

- Sign up with your details to access the application recording interface.
- Login with your details if you are an existing user.

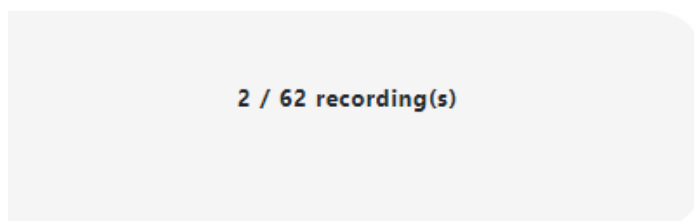

The login form is titled "Login". It contains two input fields: "EMAIL ADDRESS" with a placeholder "Email" and "PASSWORD" with a placeholder "Password". Below the password field is a blue "LOGIN" button and a link "Forgot Password?". At the bottom, there is a link "Don't have an account? Sign Up" and a "Sign in with google" button with the Google logo.

- You may view your profile or logout from the top right corner of the page.
- The text to be recorded is at the centre of the page.

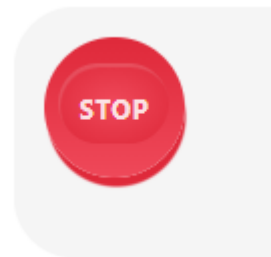

- The number of documents recorded and to be recorded is to the right of the start button and is updated after each recording is done.

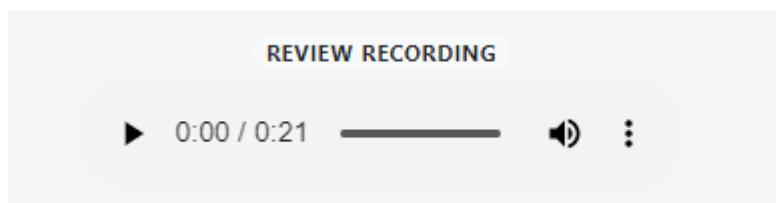

- Click the big green START button to begin your recording.

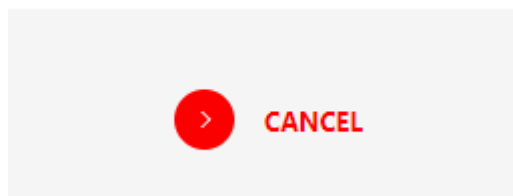

- Click the red STOP button to end recording.

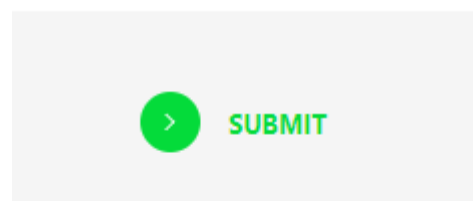

- You may review and playback the recording to evaluate it.

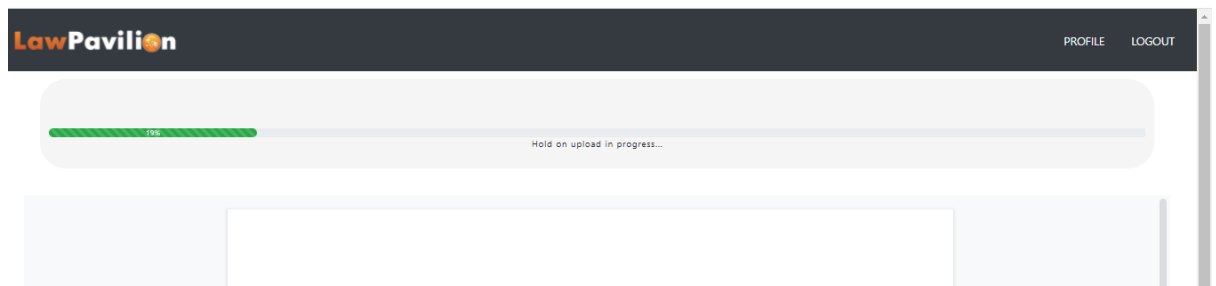

- Click CANCEL on the left if you are dissatisfied, and then click START again.

- Click SUBMIT on the right to move on to upload the recording.

- Wait while recording uploads.'

- Click CONTINUE TO NEXT DOCUMENT to move to the next document. The recording tally must have been updated.
